

MAINTENANCE OIL

INTERIOR MAINTENANCE PRODUCT

PRODUCT DESCRIPTION

Maintenance Oil is formulated to revive all wooden surfaces treated with natural oil or hardwax oil. Applying a thin coat every 2 to 5 years will prevent damages on heavy traffic areas. The floor will remain fully protected against moisture and dirt and stay beautiful for a very long time.

| 1L |

PREPARATION

Mop the floor with water to take away any dirt or dust

USER TIPS

Shake well before using as there is a matting agent on the bottom. Spray on a cotton cloth or directly on to the floor. Massage in and take away the excess oil immediately. Applying a thin coat is important for a nice and even finish.

DRYING TIMES

Touch dry after 1 hour but maintenance oil needs 5 to 6 hours to fully cure. Drying time can depend on air circulation and room temperature.

COVERAGE

80m² /1L

STORAGE

Shelf life: up to 5 years in a well closed original packaging.

IMPORTANT

Stir/shake well before and during application.

As with all wood finishing, always create a test area first to safeguard against an undesirable outcome. This technical data sheet is a guide and not a guarantee. All products are for to the best of our knowledge. The information is given as a result of many years experience. This product has had extensive tests carried out.
